

RIA GUPTA

Software Engineer · Computer Science Engineering Student

+91 78147 31025 | gupta.ria05@gmail.com | LinkedIn | GitHub | LeetCode | TryHackMe

SUMMARY

Computer Science Engineering student with a CGPA of 9.43/10 and strong knowledge of C, Data Structures & Algorithms, Operating Systems, Linux, and Computer Networks. Experienced in developing software and embedded systems projects with a strong problem-solving mindset. Passionate about systems programming and eager to contribute to software development, debugging, testing, and performance optimization in large-scale Linux-based environments.

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python

Operating Systems: Linux, Processes & Threads, Memory Management, File Systems

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, Computer Networks, Operating Systems

Cybersecurity: Network Security Fundamentals, Vulnerability Awareness, TryHackMe Practice

Tools: Git, GitHub, VS Code

Web Technologies: React, Node.js, JavaScript, HTML5, CSS3, Bootstrap, MySQL

PROJECTS

Self-Driving Car (IoT Based)

2025

ESP32, L298N Motor Driver, Ultrasonic Sensors, Embedded C

- Developed an IoT-based self-driving car using ESP32 with real-time obstacle detection and avoidance.
- Integrated ultrasonic sensors and L298N motor driver to control movement and enable autonomous navigation.
- Implemented wireless control and efficient motor handling for smooth direction and speed adjustments.

Hospital Management System

2025

React, JavaScript, APIs

- Developed a full-stack application for managing patient records, appointments and doctor workflows.
- Implemented REST API integration and role-based authentication.
- Improved data management and workflow efficiency through modular application design.

Cafe Management System

2024

HTML5, CSS3, JavaScript

- Developed a web-based application for order processing and inventory management.
- Designed separate interfaces for administrators and customers.
- Ranked among the Top 200 university submissions and advanced to the university-level hackathon.

EDUCATION

B.E. Computer Science Engineering

2024 – Present

Chitkara University

CGPA: 9.43 / 10

PUBLICATION

Relation Between the Total Number of Reflections and the Value of the Angle of Incidence When Two Plane Mirrors Are Inclined at an Angle Theta

June 2023

Journal of Emerging Technologies and Innovative Research (JETIR)

ACHIEVEMENTS

- Solved **200+** Data Structures and Algorithms problems on LeetCode covering arrays, linked lists, trees, recursion, searching, sorting and dynamic programming.
- Ranked **in top 15%** in TryHackMe
- Ranked **35th among 200+ students** in Star Programmer, a competitive college-level coding competition.

CERTIFICATIONS

Introduction to Cybersecurity — Cisco Networking Academy (2025)

Pre Security — TryHackMe (2026)

Introduction to Programming Using Python — University of Leeds (2024)

AI For Everyone — DeepLearning.AI (Coursera, 2026)

Artificial Intelligence A-Z — Udemy (2024)
